

Paper fans

You will need:

- rectangular craft paper
- ruler
- pencil
- scissors
- stapler
- string

Method

1. Choose a piece of craft paper. Fold it in half and draw a line from the bottom left corner to the top right corner.

2. Cut along the line. Open it out to see a triangle shape.

3. Starting at the bottom of the triangle, make thin folds forwards then backwards. Keep going until you have folded the whole paper.

4. When you have finished folding, open it out to see your fan.

5. Fold your paper and staple the top and bottom to make a fan.

6. Repeat the process to make fans in different colours and sizes. Attach string to hang your fan decorations.
